

Elite Calcium

Formulated using
HyGrow-Wik
Technology™

Elite Calcium is a liquid foliar fertilizer containing highly soluble, amino acid complexed calcium. It is a systemic calcium nutritional and is formulated to quickly, and safely, correct and prevent nutritional deficiencies in plants. **Calcium is essential in the formation of cell walls. Calcium is typically immobile, therefore young tissue and fruiting may be minimized when calcium levels are low.** Elite Calcium may be applied by air or with all types of ground spraying equipment. It is compatible with most common foliar pesticides and nutrients, with the exception of some phosphates/phosphites. However, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

Guaranteed Analysis:
Calcium (Ca) 10%

Source Derived From:
Calcium Amino Acid Complex

Apply early, prior to rapid growth, to allow calcium levels to reach optimal levels. It is recommended to monitor levels using tissue analysis.

Suggested Foliar Applications:

Vegetable and Row Crops (Young): Apply 16 fluid ounces

Vegetable and Row Crops (Mature): Apply 32 fluid ounces

Apply in one week intervals. Repeat 4 times throughout the growing season or as needed to correct calcium deficiency.

Tree Crops (Young): Apply 64 fluid ounces

Tree Crops (Mature): Apply 128 fluid ounces

Apply in regularly scheduled sprays. Repeat 4 times throughout the growing season or as needed to correct calcium deficiency.

Content: 2.5 US Gallons
