

Elite Zinc

**Formulated using
HyGrow-Wik
Technology™**

Elite Zinc is a liquid foliar fertilizer containing highly soluble, amino acid complexed zinc. It is a systemic zinc nutritional and is formulated to quickly, and safely, correct and prevent nutritional deficiencies in plants. **Zinc is essential for photosynthesis, chlorophyll production, synthesis of auxin, root branching, plant growth and internode elongation.** Elite Zinc may be applied by air or with all types of ground spraying equipment. It is compatible with most common foliar pesticides and nutrients, with the exception of some phosphates/phosphites. However, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

Guaranteed Analysis:
Zinc (Zn) 23%

Source Derived From:
Zinc Amino Acid Complex

Apply early, prior to rapid growth, to allow zinc levels to reach optimal levels. It is recommended to monitor levels using tissue analysis.

Suggested Foliar Applications:

Vegetable and Row Crops (Young): Apply 4 fluid ounces

Vegetable and Row Crops (Mature): Apply 8 fluid ounces

Apply in one week intervals. Repeat 4 times throughout the growing season or as needed to correct zinc deficiency.

Tree Crops (Young): Apply 8 fluid ounces

Tree Crops (Mature): Apply 16 fluid ounces

Apply in regularly scheduled sprays. Repeat 4 times throughout the growing season or as needed to correct zinc deficiency.

Pecan/Walnut Tree Crops (Young): Apply 16 fluid ounces

Pecan/Walnut Tree Crops (Mature): Apply 32 fluid ounces

Apply in regularly scheduled sprays. Repeat 4 times throughout the growing season or as needed to correct zinc deficiency.
