

Elite Manganese

Formulated using
HyGrow-Wik
Technology™

Elite Manganese is a liquid foliar fertilizer containing highly soluble, amino acid complexed manganese. It is a systemic manganese nutritional and is formulated to quickly, and safely, correct and prevent nutritional deficiencies in plants. **Manganese aids in chlorophyll synthesis, enhances starch production (carbohydrates), induces cell division and elongation and activates enzymes involved in the photosynthesis and nitrogen metabolism.** Elite Manganese may be applied by air or with all types of ground spraying equipment. It is compatible with most common foliar pesticides and nutrients, with the exception of some phosphates/phosphites. However, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

Guaranteed Analysis:
Manganese (Mn) 12%

Source Derived From:
Manganese Amino Acid Complex

Apply early, prior to rapid growth, to allow manganese levels to reach optimal levels. It is recommended to monitor levels using tissue analysis.

Suggested Foliar Applications:

Vegetable and Row Crops: Apply 8 fluid ounces

Apply in one week intervals. Repeat 4 times throughout the growing season or as needed to correct manganese deficiency.

Tree Crops: Apply 26 fluid ounces

Apply in regularly scheduled sprays. Repeat 4 times throughout the growing season or as needed to correct manganese deficiency.

Pecan/Walnut Tree Crops (Young): Apply 32 fluid ounces

Pecan/Walnut Tree Crops (Mature): Apply 64 fluid ounces

Apply in regularly scheduled sprays. Repeat 4 times throughout the growing season or as needed to correct manganese deficiency.

SHAKE WELL BEFORE USE

Content: 2.5 US Gallons
